

Washington State Citizens Committee on Pipeline Safety  
Department of Ecology Pipeline Updates  
9/14/2011

**ConocoPhillips Pipe Line Company-Yellowstone Pipeline**

- Continuing to finalize the mutual aid agreement with Tidewater Barge Lines for equipment access so that they can meet the planning standards for the Moses Lake Terminal.
- The planning standard spreadsheets were completed with Tidewater equipment was added. The Moses Lake Terminal is still short 253 barrels per day for recovery resources at the 6-hour planning standard. Ecology suggested asking contractors to move appropriate skimmers to the Spokane Area to cover the shortage.
- Spreadsheets were sent to ConocoPhillips for review.

*2011 Scheduled Drills:*

- 04/28/2011: Deployment Drill (Moses Lake)
- 6/6/2011: MSRC/NRC Wildlife Equipment Deployment (Mount Vernon)

**Nustar Pasco Pipeline**

- While at a 2010 drill, 2-2,500 bbl tanks were discovered that were not included in their contingency plan. Planning standard spreadsheets **have been** updated to reflect the increase in their worst case spill volume.

*2011 Scheduled Drills:*

- 6/28/2011: Tabletop Drill (Pasco)

**Chevron Pipe Line Company**

- Received plan updates on 7/21/2011 to regarding PHMSA changes.
- Future Drills: On 8/16/2011, Chevron contractors, Big Sky Industrial, attempted to deploy SPR 63.0, but were unable to, so the drill ended before the GRP was deployed. Ecology has required MSRC to provide more training to their STAR contractors and asked Chevron to be a part of the training. The training will take place this year.

*2011 Scheduled Drills:*

- 03/02/2011: Tabletop Drill (Pasco)
- 6/6/2011: MSRC/NRC Wildlife Equipment Deployment (Mount Vernon)
- 8/16/2011: Deployment Drill (Spokane)
- 10/25/2011: Deployment Drill (Pasco)

**Olympic Pipe Line Company**

- Plan will be updated with new language in the notifications section regarding reporting calls from outside sources.

*2011 Scheduled Drills:*

- 04/12/2011: Deployment Drill (Olympia)
  - Land based spill scenario
- 07/20/2011: Deployment Drill (Friday Creek)
  - Collection Strategy: boom, recovery, storage
- 10/10/2011: Tabletop/Deployment Drill (Central Area)

- *11/2/2011-11/3/2011: Worst Case Drill (Vancouver/Portland)*
  - *Joint BP Portland Terminal and Olympic Pipeline*

#### **Kinder Morgan Pipeline (TransMountain Pipeline)**

##### *2011 Scheduled Drills:*

- *4/12/2011: MSRC Customer Cherry Point Deployment*
  - *Boom, recovery, storage in rough open water*
- *5/4/2011: Deployment Drill (Nooksack River)*
  - *Boom, recovery, boom vane*
- *6/6/2011: MSRC Wildlife Equipment Deployment (Mount Vernon)*
- *10/12/2011: Tabletop Drill*
